

Bell London Language in Action Programme 2025

We firmly believe that integrating different activities and cultural experiences into your learning programme has multiple benefits to you as a learner, and as an individual. That is why we organise a selection of workshops, local excursions and full-day trips for you at no additional cost. Our adult courses have a dedicated Language in Action programme where students choose their activities. The programme offers you the opportunity to develop your skills, experience something new and see a full range of interesting places and communities, so please join in!
